

C zip tuplesize: Py ssize t □ ittuple: PyObject* result: PyObject* strict: int __new__(*iterables: PyObject*, strict: bool = False) dealloc () __traverse__(visit: visitproc, arg: void*) __iter__(): zip __next__(): PyObject* __reduce__(): PyObject* __setstate__(state: PyObject*): None

Iterator yielding tuples from multiple iterables.
Stops when shortest iterable is exhausted.
Strict mode raises ValueError if iterables have different lengths.
